

Elevate your cruise experience with

CATEGORY+

Through our *Category+ program*, you now have the opportunity to elevate your cruise experience by placing an offer to upgrade your existing stateroom ahead of your departure. If your offer is accepted, you'll be upgraded into your new stateroom. If your offer isn't accepted, you'll still enjoy the same outstanding service and all-inclusive luxurious amenities that come standard on every Uniworld river cruise.

HOW DO STATEROOM UPGRADES WORK?

Step 1

Browse through the stateroom options available on your sailing and select the amount you're willing to offer for each upgrade. Placing an offer on multiple staterooms will increase your chances of being upgraded, but you'll only ever pay for one upgrade.

Step 2

If your offer is approved, we'll notify you via email and your credit card will be charged for the specific upgrade offer that is accepted. You will receive a new invoice via email from our reservations team with your new stateroom category and number, based on availability.

Step 3

If you are not upgraded, we'll notify you via email. Your original stateroom will remain unchanged, and you can keep your original invoice that you already have. Your credit card will not be charged any additional amount.
